Technical Skills

Backend & Architecture:

- C# & .NET 8/9
- ASP.NET Core (REST APIs)
- Node.js
- MVC / MVVM

Frontend:

- React & Next.js
- TS & JS (DOM, Fetch API)
- HTML5 & CSS3 & Tailwind CSS

Databases:

- PostgreSQL & MySQL
- SQLite & EF Core

DevOps & Tools:

- Docker & Docker Compose
- Git/GitHub
- Postman
- Linux (WSL) & Vite
- AI Agents & Prompt Engineering

Core Concepts

- OOP & SOLID Principles
- Decoupled Architecture & RSC

About me

- CS student** at **CUT** specializing in robust **C#/.NET** backends and actively exploring **React/Next.js**.
- I bridge **the gap** between relational **databases**, scalable **APIs**, and dynamic **UIs**, taking apps through their **full** lifecycle (including **Docker**).
- Seeking my **first commercial** role to deliver **clean, tested E2E** solutions.

Languages

- Polish - native**
- English - B2 (spoken & written)**

Featured Projects

GameNest – Digital Game Distribution Platform

Technologies: Pure PHP, PostgreSQL, JS, HTML, CSS, Docker

- Architected an **E2E, fullstack** web app **without** frameworks
- Designed a custom **MVC architecture**, strictly adhering to **Object-Oriented Programming** (OOP) and **SOLID** principles.
- Fully **containerized** the application **environment** using **Docker**, ensuring consistent cross-platform **execution**.

Hotel Management REST API

Technologies: C#, .NET 9, ASP.NET Core, EF Core, SQLite, Postman

- Developed a **RESTful API** for a **hotel reservation manag.** system.
- Integrated **Entity Framework Core** for database **communication**.
- Design, doc., and test **API endpoints** with **Swagger & Postman**.

Education

Cracow University of Technology

B.Sc. in Computer Science (Engineering)

October 2023 - present

Experience

Customer Advisor (Technical Support)

Polkomtel Sp. z o. o.

Skawina | May 2025 – Aug 2025

- Conducted technical **troubleshooting** for **mobile devices**, effectively **diagnosing** and **resolving** user issues.
- Translated complex **technical problems** into **accessible language** for non-technical clients.

Station Staff

ORLEN S.A.

Kraków & Nowy Sącz | Jun 2023 – May 2024

Certifications (2026)

- C# & WPF App Dev (Udemy)**
- Docker & SQL (DataCamp)**
- Intermediate React & TS (Master.Dev)**
- AI Prompt Engineering (Google)**
