Technical Skills

Backend & Architecture:

- C# & .NET 8/9
- ASP.NET Core (REST APIs)
- Clean Architecture & CQRS
- MVC/MVVM & Node.js

Frontend:

- React & TypeScript
- React Query & Vite
- JS (DOM, Fetch API)
- HTML5, CSS3, Tailwind CSS

Databases:

- PostgreSQL & MySQL
- SQLite & EF Core

DevOps & Tools:

- Docker & Docker Compose
- Git/GitHub & Linux (WSL)
- Postman & Stripe API
- AI Agents & Prompt Engineering

Core Concepts

- OOP & SOLID Principles
- Decoupled Architecture
- Optimistic Concurrency Control

About me

- CS student at CUT** specializing in robust **C#/.NET** backends and actively exploring **frontend** technologies (React, Vite).
- I bridge the gap between relational **databases**, scalable **APIs**, and dynamic **UIs**, enforcing **Clean Architecture** and taking apps through their **full** lifecycle (including Docker).
- Seeking my first **commercial** role to deliver clean **E2E** solutions.

Languages

- Polish - native
- English - B2 (spoken & written)

Featured Projects

[GymCore - E2E Fitness SaaS Platform](#)

Technologies: C#, .NET 9, React, TypeScript, PostgreSQL, Docker

- Engineered a concurrent **SaaS** platform for fitness clubs (**CQRS**).
- Implemented **optimistic concurrency** control in **EF Core**.
- Integrated the **Stripe API** for secure, **asynchronous** subscription billing via cryptographically signed **webhooks**.

[GameNest – Digital Game Distribution Platform](#)

Technologies: Pure PHP, PostgreSQL, JS, HTML, CSS, Docker

- Architected an **E2E, fullstack** web app **without** frameworks.
- Designed a custom **MVC architecture**, strictly adhering to **Object-Oriented Programming** (OOP) and **SOLID** principles.
- Fully **containerized** the application **environment** using **Docker**, ensuring consistent cross-platform **execution**.

Education

- Cracow University of Technology**
B.Sc. in Computer Science (Engineering)
October 2023 - present

Experience

- Customer Advisor (Technical Support)**
Polkomtel Sp. z o. o.
Skawina | May 2025 – Aug 2025
 - Conducted technical **troubleshooting** for **mobile devices**, effectively **diagnosing** and **resolving** user issues.
 - Translated complex **technical problems** into **accessible language** for non-technical clients.
- Station Staff**
ORLEN S.A.
Kraków & Nowy Sącz | Jun 2023 – May 2024

Certifications (2026)

- C# & WPF App Dev (Udemy)
- Docker & SQL (DataCamp)
- Intermediate React & TS (Master.Dev)
- AI Prompt Engineering (Google)
